OnTheProduct: A partnership based on you

We invite you to partner with OnTheProduct - your personal design partner. Our goal is to provide you not just with services, but with support, inspiration and creative solutions. From concept to execution, our design studio provides a full range of design services to help your brand stand out and thrive in the marketplace.

Meet our tariff plans:

Standart Plan

Our first innovative subscription gives you full access to a variety of design solutions for 30 business days. This is the ideal choice for stable and flexible cooperation.

Premium Plan

This is the next level of flexibility and efficiency in our services. The main difference from the "Standard Plan" subscription is the ability to simultaneously process two of your work requests. Consequently, the client receives twice as much work as with a Standard subscription.

Subscriptions

Standart

- **One** request at a time
- Average delivery within 48 hours
- Unlimited brands
- Unlimited number of users
- Convenient payment with crypto
- Suspend or cancel at any time

3499\$

Premium

- **Two** requests at a time
- Average delivery within 48 hours
- Unlimited brands
- Unlimited number of users
- Convenient payment with crypto
- Suspend or cancel at any time

5999\$

Practicality

Our plans offer simplicity and convenience. Clients have access to a full range of design services without worrying about each individual order. This allows you to focus on the essential aspects of your project, rather than on organizational details.

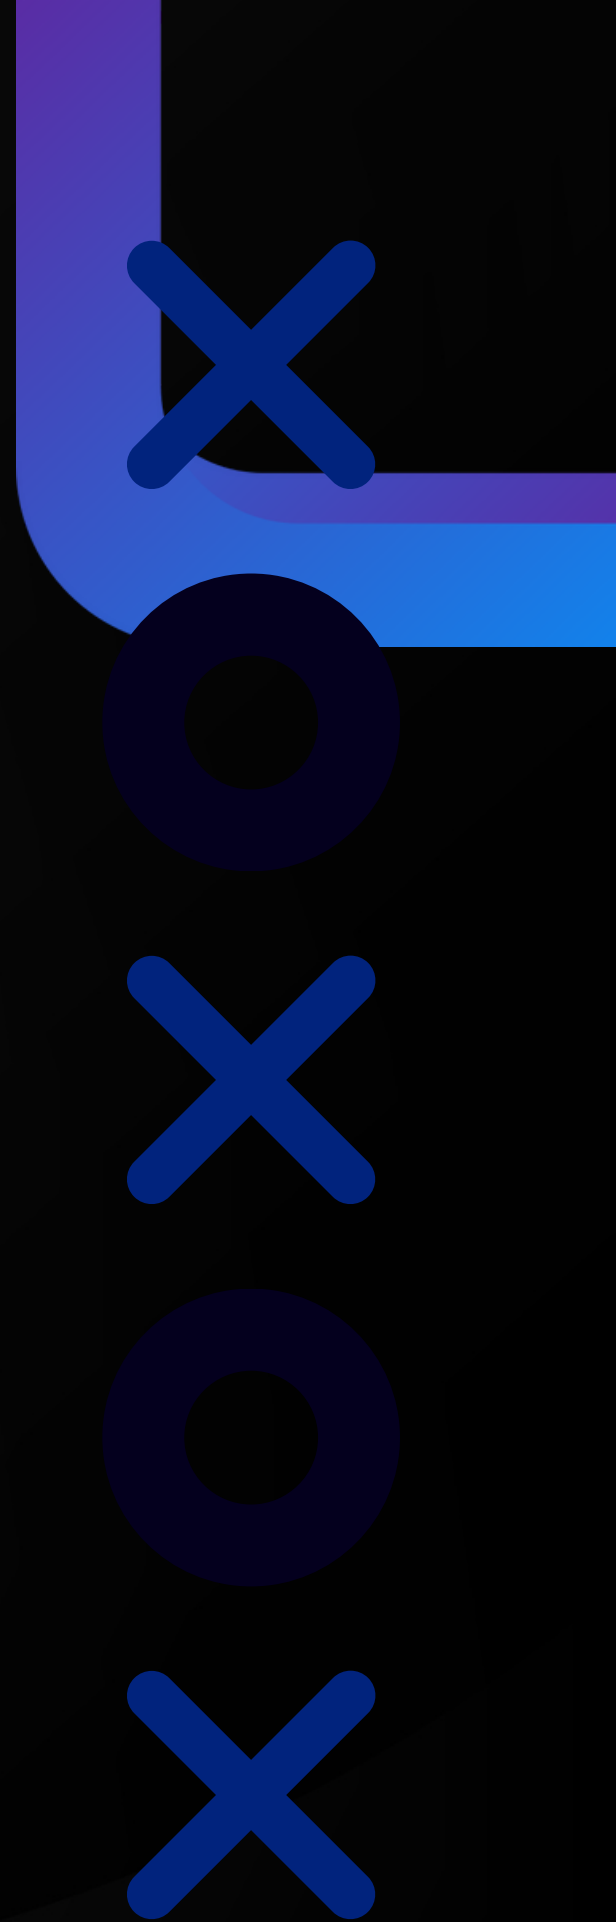

Economy

Cooperation with us guarantees predictable costs. Instead of paying for each job, tariffs allow you to plan costs, which helps you manage your project budget more efficiently. Clients save not only money but also time that was previously spent on organizing each job.

Distribution of working days

Customers have the flexibility to manage the workdays provided under the 30-day subscription.

If there is a period when they do not need to use the services, they can save these business days and use them at their discretion, at any time convenient for them during the subscription period.

Is quality design the key to the success of any company?

Even if your business is small today, good design can help it become big tomorrow.

1. Good design makes a strong first impression. Good design is the harmonious and balanced use of colors, shapes, textures, space, images, and content.
2. Good design will help your business stand out. If you thought you had no competition, think again.
3. Good design strengthens customer relationships. Because relationships are based on emotions, customers are often emotionally involved with a company.

Individual Consulting

If you would like to discuss the details of cooperation in more detail, we can offer you individual consultation via video call or in written format. This will allow you to choose the most convenient way to discuss in detail the issues and plans for your project.

We appreciate your time and interest in our presentation. Thank you for the opportunity to share our services and consider cooperation opportunities.
